C17/18.20 District Governors Report

In addition to her report which had already been circulated, the DG raised the following:

The DG emphasised the motions to be debated and voted on at the forthcoming RIBI Business Meeting at the RIBI Conference. She encouraged all Clubs to register to vote on-line in support of the motion if that was their wish. A similar motion had been voted down by those attending on the floor last year when there were few on-line voters.

The RIBI President has no role in RI and the RI does not support the concept of a presidential role. No Presidents have been approved by RI since that of the RIBI President in 1926.

The motion put forward and supported by General Council proposes that by 2020 the role of the RIBI President will be abolished and the RI appointed Director will have an enhanced role. The aim is to deliver cost savings and allow for a management structure fit for the 21st century.

A second motion Proposes that **ALL** future Committees will be retitled Teams. The leaders of these teams will sit on the Executive. This structure will make them more accountable. The Learning and Development Team have already changed and have delivered real cost savings while at the same time delivering training which is much more focused.

When opened to the floor, the following questions were raised:

1. (Lutterworth) Could a copy of the proposed resolutions be circulated to Clubs. In response the DG and District Secretary emphasised that this had already been done via Club Secretaries.
2. John Hockin(Woodhall Spa) Wished to support General Council although they would like the motion to go further in bringing change. They emphasised the fact that it is important to VOTE.
3. Ken McKellar(Stamford Burghley) This was one of many clubs that had problems registering their vote. It was acknowledged that there had been problems last year but it is hoped that these have now been resolved.
4. A representative of Lincoln Colonia questioned if a postal vote could be organized given the problems of last year. It was pointed out that this was not possible but it was hoped that the issues from last year had been resolved.
5. David Burr(Grantham) noted that the search engine that had been used last year did not support voting and that he hoped that this issue had now been resolved.
