**Philippines Projects.**

John Dehnel has reported that the receipt of the final report for the school project has been acknowledged.

Alison reported that the computer training in Tacloban is being successfully cascaded down. Approximately 1700 teachers in the Tacloban area will benefit. Support from the teachers who had visited Tacloban is continuing through the provision of resources through a drop box system.

In planning for the water fountains grant application, Alison has obtained preliminary quotations. Each unit would cost about £4000.

Books to send to the Philippines are still being accumulated. A lending library has been established by the Department of Education in Tacloban so that the use of the books is maximised.
