

Notes on Foundation for Club Council – 12 January 2017

ALB has had another conversation with Irvin Metcalf regarding the excess grant money from the District Grant 2015/16. More paperwork/suggestions have been forthcoming and I am endeavouring to sort this over the weekend but have a lot of travelling to do.

Once this grant is cleared then we can apply for a new grant to help fund the fares for Valerie and Kully to continue the training as planned in July 2017.

We currently have 2 boxes of books ready to go to Philippines. There are about 100 books at Valerie's school but I am not collecting them until end January as we have examinations here and so nowhere to store the books easily. There are also books ready to go from the school in Worcester.

JD suggested to District Foundation that we hold a summer function for Polio Awareness. The District committee feel that we should not take on any more functions this year. However as I already open TH for NGS I am happy to put aside another Sunday to do afternoon tea and garden visit for End Polio if CC /CS think this a good idea.

Global Grant for water fountains: I cannot see us being in a position to apply for one this Rotary year. Added to this the fact that there is no DDF available, it would be better put into 2017/18 year.
